J.E. Mussig Greenhouses Inc., established in 1939 and located in the rolling hills of Southwestern Pennsylvania is now a third generation family owned and operated business.

Julian Mussig immigrated to the United States from Germany in hopes of building a better life for himself. After gaining much horticulture experience as an employee in a greenhouse, Julian decided to strike out on his own and established Mussig Greenhouse. After successfully operating the business for nearly thirty years, Julian then sold the business to his son, Sonny in 1965. In 1978 it was incorporated as J. E. Mussig Greenhouses Inc.

In 1990 John Mussig, sitting on the board of Directors for the Pennsylvania Flower Growers Region 4, took over the 31 greenhouse establishment and, through hard work and dedication, has continued to see his Grandfather's dream grow. In 1993 John added the sale of bark mulch. The year 2000 saw over 50 greenhouses in operation and the Garden Center expanded to over twice it's original size. With a fleet of 6 trucks and a staff of 8 full time employees and up to 18 during peak season, J.E. Mussig Greenhouses Inc. keeps growing to meet the needs of their customers. In the end a satisfied customer is the best advertisement.

*This is the day the LORD has made; let us rejoice and be glad in it. Psalm 118:24*
